Nov 7, 2026

Antonio Cangiano
Director, IBM Skills Network

Daniil Kozlov

has successfully completed the online Professional Certificate

IBM Project Manager

The holders of this certificate have demonstrated proficiency in project management concepts, tools, principles, skills, mindsets, and language. They understand how to initiate a project, execute it successfully, and manage risks through the project lifecycle. They know how to manage and communicate with stakeholders and apply leadership skills. Learners are also able to employ different project management methodologies including Agile. They completed numerous hands-on labs to gain practical experience and built a portfolio of projects demonstrating their proficiency for an entry-level role in project management. Additionally, these courses help prepare learners for the CAPM certification exam from the Project Management Institute (PMI).

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
