Daniil Kozlov

has successfully completed the online Professional Certificate

Microsoft Project Management: Build Job-Ready Skills

Now that you have completed the Microsoft Project Management Professional Certificate, you stand out with a unique set of skills and knowledge in the dynamic field of project management. This certificate demonstrates your job readiness and can be shared with your professional network. Throughout this program, you've engaged with instructional videos, assessments, and practical exercises, gaining a deep understanding of key aspects of project management, including: • Motivating people and teams through all phases of a successful project. • Using predictive, agile and hybrid approaches to determine which way of working is best for each project. • Highlighting the success of a project and its impact on overall strategic organizational goals.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
